|--|---|--|
| Storage  | : Store locked up.  |  |
| Response   | : IF exposed or concerned: Get medical advice or attentior  | ۱.   |
| Prevention   | : Obtain special instructions before use. Do not handle un<br>been read and understood. Wear protective gloves, prote<br>protection. Do not breathe vapor. Do not eat, drink or sn<br>Wash thoroughly after handling. | ective clothing and eye or face<br>noke when using this product. |
| General  | : Read label before use. Keep out of reach of children. If product container or label at hand.  |  |
| Precautionary statements                               |   |  |
| Hazard statements                                      | : Suspected of causing cancer.<br>Causes damage to organs through prolonged or repeated   | d exposure. (lungs)  |
| Signal word  | : Danger  |  |
| Hazard pictograms                                      |   |  |
| GHS label elements                                     | Percentage of the mixture consisting of ingredient(s) of u (oral), 3.1% (dermal), 3.1% (inhalation)   | nknown acute toxicity: 3.1%                                      |
| Classification of the substance or mixture             | : CARCINOGENICITY - Category 2<br>SPECIFIC TARGET ORGAN TOXICITY (REPEATED E)   | , .  |
| OSHA/HCS status  | : This material is considered hazardous by the OSHA Haza (29 CFR 1910.1200).  | ard Communication Standard                                       |

# Section 2. Hazards identification

| Disposal                         | : Dispose of contents and container in accordance with all local, regional, national and international regulations.                          |
|----------------------------------|--|
| Supplemental label elements      | WARNING: This product contains chemicals known to the State of California to cause<br>cancer and birth defects or other reproductive harm.   |
|                                  | Please refer to the SDS for additional information. Keep out of reach of children. Do not transfer contents to other containers for storage. |
| Hazards not otherwise classified | : None known.  |

# Section 3. Composition/information on ingredients

#### Substance/mixture Other means of

: Mixture

identification

: Not available.

#### **CAS number/other identifiers**

| Ingredient name      | % by weight | CAS number |
|----------------------|-------------|------------|
| Titanium Dioxide     | ≥10 - ≤25   | 13463-67-7 |
| Kaolin               | ≤5          | 1332-58-7  |
| Heavy Paraffinic Oil | ≤1          | 64742-65-0 |

Any concentration shown as a range is to protect confidentiality or is due to batch variation.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

### Section 4. First aid measures

| Description of necessary f | rst aid measures  |
|----------------------------|---|
| Eye contact                | <ul> <li>Immediately flush eyes with plenty of water, occasionally lifting the upper and lower<br/>eyelids. Check for and remove any contact lenses. Continue to rinse for at least 10<br/>minutes. Get medical attention.</li> </ul>   |
| Inhalation                 | : Remove victim to fresh air and keep at rest in a position comfortable for breathing. If<br>not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial<br>respiration or oxygen by trained personnel. It may be dangerous to the person providing<br>aid to give mouth-to-mouth resuscitation. Get medical attention. If unconscious, place<br>in recovery position and get medical attention immediately. Maintain an open airway.<br>Loosen tight clothing such as a collar, tie, belt or waistband.   |
| Skin contact               | : Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Continue to rinse for at least 10 minutes. Get medical attention. Wash clothing before reuse. Clean shoes thoroughly before reuse.  |
| Ingestion                  | : Wash out mouth with water. Remove dentures if any. If material has been swallowed<br>and the exposed person is conscious, give small quantities of water to drink. Stop if the<br>exposed person feels sick as vomiting may be dangerous. Do not induce vomiting<br>unless directed to do so by medical personnel. If vomiting occurs, the head should be<br>kept low so that vomit does not enter the lungs. Get medical attention. Never give<br>anything by mouth to an unconscious person. If unconscious, place in recovery position<br>and get medical attention immediately. Maintain an open airway. Loosen tight clothing<br>such as a collar, tie, belt or waistband. |

# Section 4. First aid measures

| Skin contact                    | : No known significant effects or critical hazards.   |
|---------------------------------|---|
| Ingestion                       | : No known significant effects or critical hazards.   |
| <u>Over-exposure signs/symp</u> | <u>otoms</u>  |
| Eye contact                     | : No specific data.   |
| Inhalation                      | : No specific data.   |
| Skin contact                    | : No specific data.   |
| Ingestion                       | : No specific data.   |
| Indication of immediate med     | lical attention and special treatment needed, if necessary  |
| Notes to physician              | <ul> <li>Treat symptomatically. Contact poison treatment specialist immediately if large<br/>quantities have been ingested or inhaled.</li> </ul> |
| Specific treatments             | : No specific treatment.  |
| Protection of first-aiders      | : No action shall be taken involving any personal risk or without suitable training. It may   |
|                                 |   |

See toxicological information (Section 11)

# Section 5. Fire-fighting measures

| Extinguishing media                            |   |
|--|---|
| Suitable extinguishing media                   | : Use an extinguishing agent suitable for the surrounding fire.   |
| Unsuitable extinguishing media                 | : None known.   |
| Specific hazards arising from the chemical     | : In a fire or if heated, a pressure increase will occur and the container may burst.   |
| Hazardous thermal decomposition products       | : Decomposition products may include the following materials:<br>carbon dioxide<br>carbon monoxide<br>metal oxide/oxides  |
| Special protective actions for fire-fighters   | <ul> <li>Promptly isolate the scene by removing all persons from the vicinity of the incident if<br/>there is a fire. No action shall be taken involving any personal risk or without suitable<br/>training.</li> </ul> |
| Special protective equipment for fire-fighters | : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.   |

be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

## Section 6. Accidental release measures

| Personal precautions, protect  | ve equipment and emergency procedures  |
|--------------------------------|--|
| For non-emergency<br>personnel | : No action shall be taken involving any personal risk or without suitable training.<br>Evacuate surrounding areas. Keep unnecessary and unprotected personnel from<br>entering. Do not touch or walk through spilled material. Avoid breathing vapor or mist.<br>Provide adequate ventilation. Wear appropriate respirator when ventilation is<br>inadequate. Put on appropriate personal protective equipment. |
| For emergency responders       | : If specialized clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".  |

#### Environmental precautions :

| Date of issue/Date | of revision                           | : 2/5/2024     | Date of previous issue | : 11/1/2023 | Version : 16     | 3/13 |
|--------------------|---------------------------------------|----------------|------------------------|-------------|------------------|------|
| 6004-287           | Integrity® Paint and P<br>Pastel Base | rimer Semi-Glo | ss Exterior            |             | SHW-85-NA-GHS-US |      |

### Section 6. Accidental release measures

Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).

#### Methods and materials for containment and cleaning up

| Small spill | : Stop leak if without risk. Move containers from spill area. Dilute with water and mop up<br>if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and<br>place in an appropriate waste disposal container. Dispose of via a licensed waste<br>disposal contractor.  |
|-------------|---|
| Large spill | : Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see Section 1 for emergency contact information and Section 13 for waste disposal. |

### Section 7. Handling and storage

#### Precautions for safe handling

| Protective measures  | Put on appropriate personal protective equipment (see Section 8). Avoid exposure -<br>obtain special instructions before use. Do not handle until all safety precautions have<br>been read and understood. Do not get in eyes or on skin or clothing. Do not breathe<br>vapor or mist. Do not ingest. If during normal use the material presents a respiratory<br>hazard, use only with adequate ventilation or wear appropriate respirator. Keep in the<br>original container or an approved alternative made from a compatible material, kept<br>tightly closed when not in use. Empty containers retain product residue and can be<br>hazardous. Do not reuse container. |
|--|---|
| Advice on general<br>occupational hygiene                          | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.   |
| Conditions for safe storage,<br>including any<br>incompatibilities | Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.   |

Other adverse effects : No known significant effects or critical hazards.

### Section 13. Disposal considerations

```
Disposal methods
```

: The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

## Section 16. Other information

Hazardous Material Information System (U.S.A.)

The customer is responsible for determining the PPE code for this material. For more information on HMIS® Personal Protective Equipment (PPE) codes, consult the HMIS® Implementation Manual.

Caution: HMIS® ratings are based on a 0-4 rating scale, with 0 representing minimal hazards or risks, and 4 representing significant hazards or risks. Although HMIS® ratings and the associated label are not required on SDSs or products leaving a facility under 29 CFR 1910.1200, the preparer may choose to provide them. HMIS® ratings are to be used with a fully implemented HMIS® program. HMIS® is a registered trademark and service mark of the American Coatings Association, Inc.

#### Notice to reader

It is recommended that each customer or recipient of this Safety Data Sheet (SDS) study it carefully and consult resources, as necessary or appropriate, to become aware of and understand the data contained in this SDS and any hazards associated with the product. This information is provided in good faith and believed to be accurate as of the effective date herein. However, no warranty, express or implied, is given. The information presented here applies only to the product as shipped. The addition of any material can change the composition, hazards and risks of the product. Products shall not be repackaged, modified, or tinted except as specifically instructed by the manufacturer, including but not limited to the incorporation of products not specified by the manufacturer, or the use or addition of products in proportions not specified by the manufacturer. Regulatory requirements are subject to change and may differ between various locations and jurisdictions. The customer/buyer/user is responsible to ensure that his activities comply with all country, federal, state, provincial or local laws. The conditions for use of the product for any purpose other than the purpose shown in the applicable section of this SDS without first referring to the supplier and obtaining written handling instructions. Due to the proliferation of sources for information such as manufacturer-specific SDS, the manufacturer cannot be responsible for SDSs
